Time Tracking Worksheet

written by CresthavenRPG Guru | September 10, 2019

In Cresthaven RPG, we have a special way to keep track of time in the game. It’s called the Time Tracking Worksheet. It helps us know how much time has passed in the game. Each box on the worksheet represents one turn, and it has all the rounds and notes in it. Each row on the worksheet tracks one hour of game time. And guess what? Each page can hold 8 hours of exciting dungeon adventures! So with the Time Tracking Worksheet, we can keep track of time easily and enjoy our game even more!

Also compatible with old versions of AD&D!
