

Barbarian

written by CresthavenRPG Guru | December 18, 2014

Barbarian fighters are fierce warriors who come from the untamed wilderness of the fantasy world. They have learned to live off the land, hunting and foraging to survive in the harsh environment. From a young age, they are taught to fight with whatever weapons they can find, and their physical strength and agility are honed through constant exercise and training.

As they grow older, barbarians become more skilled in combat, using their brute force and savage instincts to overpower their enemies. They are fearless in battle and can endure pain and hardship that would cripple other fighters. With their wild and free spirits, barbarians are a force to be reckoned with on the battlefield, and their ferocity and determination make

them valuable allies to any party.
