#### Combat

Has 1 attack. Hit Bonus +1. Damage Prick. 1d4 damage

## Special Defense

Invisible. Pixies are invisible unless they want to be seen (or unless magically detected). Unlike the effects of the invisibility spell, pixies can attack and remain invisible, and they always gain surprise when doing so. They may not be attacked in the first round of combat, but after that their attackers will see shadows and movement in the air and may attack the pixies with a -4 penalty on Hit Rolls.
